

FOR IMMEDIATE RELEASE – 15 December 2010

**Amarinth secures \$300K order for pumps in the
challenging Sahil and Shah oil fields in Abu Dhabi**

Amarinth, a leading company specialising in the design, application and manufacture of centrifugal pumps and associated equipment to the industrial, chemical and petrochemical industries has secured an initial order for \$300K of process pumps from leading Spanish engineering and construction company Tecnicas Reunidas for use the Sahil and Shah fields as part of the Full Field Development project in Abu Dhabi.

The order from Tecnicas Reunidas is for \$300K (USD) of eight duplex DI pumps – four ISO 5199 C-Series horizontal pumps and four ISO 5199 T-Series vertical sump pumps – to be deployed in the Sahil and Shah oil fields in a desert area about 220 km south of Abu Dhabi city in Abu Dhabi.

Tecnicas Reunidas was awarded Package B of the Full Field Development project (the biggest on-shore project ever awarded in the region) by Abu Dhabi Company for Oil Operations (ADCO) last year. Amarith has been involved with this project previously though, having won an order for \$4million earlier this year from Petrofac for API 610 pumps for use in Package A of the Full Field Development project in the Asab field.

– MORE –

This is the first time Amarith has worked with Tecnicas Reunidas however, and instrumental in Amarith winning this order was being an ADCO approved supplier as well as the experience from the Petrofac contract in the handling of project documentation and procedures, an area that is becoming increasingly important in such projects.

Amarinth reacted very quickly to the particularly complex specifications of the project and incorporated a number of last minute requirements enabling Tecnicas Reunidas to fulfil its obligations. Amarith drew on its experience of previously supplying to the ADCO specifications and guided and advised Tecnicas Reunidas saving them time and money in the process. Amarith and Tecnicas Reunidas are now in discussions over additional pumps required on the same contract that will need to be fast tracked.

Oliver Brigginsshaw, Managing Director of Amarith commented: “We are delighted to have been awarded this order by Tecnicas Reunidas. It not only increases our footprint within the world’s major engineering contractors but also underlines our continued commitment to providing the very best pumping technologies, short-lead time deliveries and full documentation and support to the most demanding high specification petrochemical projects in the world.”

NOTES TO EDITORS:

Founded in 2002, Amarith has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarith delivers world-leading expertise in the design, application and manufacture of centrifugal pumps and associated equipment to ISO, ANSI & API standards, primarily for the industrial, chemical & petrochemical markets. Their portfolio includes:

- **Pumps:** Horizontal and vertical API 610 pumps, chemical and industrial pumps, many of which are interchangeable with the Girdlestone pump ranges, eliminating the need for expensive modifications when replacements are required.
- **Pressure Vessels:** Protect System Plan 52 and 53A and 53B sealant systems with inbuilt condition monitoring for pumps and mixers that are suitable for Safe area up to Zone I.
- **Spares & Service:** High quality, fast lead-time re-engineered spare parts to improve performance and extend pump life, including many which are directly interchangeable with the Girdlestone pump ranges.
- **Packages & Modules:** Condensate Recovery Units manufactured for Spirax Sarco incorporating the innovative Ci-Nergy intelligent variable speed control system, plus bespoke packages & skids built to order.
- **Business Systems:** state-of-the-art e-commerce technologies that deliver 24/7 support enabling customers to select pumps and place orders on-line and then track every stage of manufacture through to delivery, any time, anywhere in the world.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Fluor and Halliburton.
