

FOR IMMEDIATE RELEASE – 10 March 2008

Amarinth continues to strengthen in the UK

Amarinth, a leading company specialising in the design, application and manufacture of pumps and associated equipment, has underlined its expanding business in the UK with the appointment of a new sales engineer for the north of the country.

Sheldon Wilford, who has been associated with Amarith since 2003, joins the team as sales engineer for the North of the country. Having spent over 18 years in the pump industry Sheldon brings strong technical skills to his new role.

His previous responsibilities include Business Development Manager for Garlock (GB) Ltd and prior to that, technical sales for AESSEAL plc and a spell at JP Pumps. Sheldon's wealth of experience in the chemical and petrochemical markets is perfectly suited to delivering the first class service that Amarith's customers in the North of the country, such as GlaxoSmithKline, Novartis, and BP Chemicals, have come to expect.

This new appointment is one of a number that Amarith have made recently to support its strong growth both here in the UK and in its burgeoning export business, particularly in Scandinavia and the Middle East.

– MORE –

Sheldon is enthusiastic about the opportunities that Amarith has to offer: “I have been associated with Amarith for five years and have watched them grow progressively year on year. I am pleased to now be part of a forward thinking company who believe passionately in good customer service. My aim is to help grow the customer base and expand upon the fantastic work that has been achieved by Amarith already.”

Sheldon Wilford

NOTES TO EDITORS:

Founded in 2002, Amarith has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarith delivers world-leading expertise in the design, application and manufacture of centrifugal pumps and associated equipment to ISO, ANSI & API standards, primarily for the industrial, chemical & petrochemical markets. Their portfolio includes:

- **Pumps:** Horizontal and vertical API 610 pumps, chemical and industrial pumps, many of which are interchangeable with the Girdlestone pump ranges, eliminating the need for expensive modifications when replacements are required.
- **Pressure Vessels:** Protect System Plan 52 and 53A and 53B sealant systems with inbuilt condition monitoring for pumps and mixers that are suitable for Safe area up to Zone I.
- **Spares & Service:** High quality, fast lead-time re-engineered spare parts to improve performance and extend pump life, including many which are directly interchangeable with the Girdlestone pump ranges.
- **Packages & Modules:** Condensate Recovery Units manufactured for Spirax Sarco incorporating the innovative Ci-Nergy intelligent variable speed control system, plus bespoke packages & skids built to order.
- **Business Systems:** state-of-the-art e-commerce technologies that deliver 24/7 support enabling customers to select pumps and place orders on-line and then track every stage of manufacture through to delivery, any time, anywhere in the world.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Fluor and Halliburton.
